

I enjoy my satellite radio and use the weather information frequently. I would hope you will see fit to reconsider your actions against this issue and move on to something more important. I pay a monthly fee for this service and I want to continue to with the same amount of service or more. I believe it is my first amendment right to subscribe to this service and receive the full range of broadcasting. I therefore ask the FCC to reject the NAB's petition 04-160 and to support satellite Radio's ability to provide the kind of programing I demand and deserve.
